PILD Conference

08:00 AM - 05:00 PM EST

All Extension professionals are invited to attend the PILD conference April 20-22, 2026 in Bethesda, MD (DC). What is the Public Issues Leadership Development (PILD) Conference? The PILD conference was designed to provide Extension professionals an opportunity to go to Washington, D.C. and learn more about why it is important to advocate for Extension and how to do it! Extension has been called the best-kept secret- but that's not a good thing- we need our stakeholders and representatives at all levels to know about the critical work that we do. PILD not only offers opportunities to learn about how it all works and how to do it, but also a chance to join colleagues from your state to meet your representatives and senators. Past conferences have included presentations on "Raising Local Voices," "Social Media's Crucial Role as Liaison to Key Policymakers and Stakeholders," "Democracy is Not a Spectator Sport," and "Federal Funding Lines," among other topics. Registration opens January 2026. Abstracts for presentations due: January 21st. Find the conference website here. Submit an abstract by January 21st here.

Native Plant Webinar Series

12:00 PM - 01:00 PM EST

The National Extension Native Plant Initiative (NENPI) will be hosting a free weekly webinar every Tuesday in April from 12:00 – 1:00 pm (Eastern) to kick off the spring season. Topics will be geared toward natural resource extension professionals and those in related fields with an interest in native plants in the landscape, seed collection and processing, and the role of seed banks for local ecotypes. The webinars are open to both ANREP members and non-members.

Webinar topics

Native Plants: Teaching Tips and Tools for Adoption - Tuesday, April 7

Native Plants: Local Ecotypes and the Role of Seed Banks - Tuesday, April 14

Native Plants: Small Scale Seed Collection and Storage - Tuesday, April 21

Native Plants: Community Collaboration for Seed Conservation - Tuesday, April 28

Leading through Mentorship: Coaching Skills that Build Capacity in Extension
Effective mentorship is a leadership skill that strengthens people, programs, and organizations. This webinar explores practical coaching and mentoring strategies Extension professionals can use to support colleagues, develop confidence, and build long-term capacity. Participants will reflect on their mentoring approach and leave with tools they can apply immediately in real-world Extension settings.
